Chandan Bandi

Sr. Front-End/ UI Developer

Email: bchandu2988@gmail.com
Phone: 224-410-9571
Portfolio: https://chandanbandi.github.io/

PROFESSIONAL SUMMARY:

- Have **10 years of experience** as a Frontend Developer in developing User Interface (UI) for **Web Applications** by using **HTML/HTML5, DOM, CSS/CSS3, Bootstrap, JavaScript, ES6, jQuery, Ajax, JSON, React js, Angular.**
- Expertise in developing web pages using **HTML/HTML5, XML, DHTML CSS/CSS3, SCSS, LESS, JavaScript, React JS, Redux, jQuery, JSON, Node.js, Bootstrap.**
- Demonstrated proficiency in all phases of **SDLC** like Requirement Analysis, Implementation and Maintenance, and extensive experience with **Agile** and **SCRUM**.
- Expertise in creating user Interfaces for **Mobile/Tablet/Desktop** using **HTML5 & CSS3**.
- Good experience on customizing **CSS frameworks** like **Bootstrap** using CSS preprocessors **LESS, SCSS**.
- Expertise in analyzing the **Document Object Model** (DOM) Layout, **DOM Functions**, and JavaScript functions, Cascading Styles across cross-browser using **Firebug**, **Developer Tools**.
- Expertise in **React.js** for creating interactive UI using **One-way data flow, Virtual DOM, JSX** concepts.
- Expertise in creating **Templates, Mockups and Prototypes, Web Interfaces, Layouts** and **Flow of Future Pages**.
- Expertise in **React JS** framework and **Angular** to develop the **SPA**.
- Expertise in using React JS components, **Forms**, Events, Keys, **Router**, plus **Redux**, **Animations** and **Flux concept**.
- Experience in working with **Redux** architecture using complex **Object-Oriented concepts** in improving the performance of the websites.
- Expertise in **React Component** for **UX-Library** consisted of Button, Checkbox, Input, Icons, Toggle Button, Dropdown, Multi-Level Dropdown.
- Good experience in creating Custom **Reusable React Components** Library.
- Experience in Node environment using **Node.js**, **NPM**, **Grunt**, **Gulp**, and **Bower**.
- Expertise in **RESTful**, SOAP **web services** to integrate between Application to Application
- Expertise in implementing easy to use **Bootstrap library** for building carousel, accordion, modal windows etc.
- Proficient in using **Unit testing frameworks** along with Jasmine, Karma, Protractor, Mocha test runners.

- Expertise in **Version Control** tools like **Gitlab, GIT, SVN** and Clear-Case for Source Code version management.
- Expertise in using IDE tools such as **Notepad ++, Eclipse, Visual Studio Code, Sublime Text Editor, IntelliJ Idea,** and **Web Storm**.

TECHNICAL SKILLS:

Debugging Tools: Google Chrome Web Debugger, Firebug, Mozilla Firefox, IE.
Frameworks: Bootstrap, Tailwind, Foundation and JavaScript frameworks.
IDE: Eclipse, Sublime text, Notepad++, WebStorm, Microsoft VS Code.
Operating Systems: Windows Environment, Mac OS
UI Web Technologies: HTML, HTML 5, XHTML, JavaScript, AJAX, jQuery, JSON, CSS, SCSS, CSS3, DOM, Vanilla JS, React JS, Angular JS, Angular 2/4/14, GraphQL, Rest API, TypeScript and Node.js.
Web Designing Tools: Adobe Photoshop, Adobe Illustrator, Adobe XD, Figma, Invision.

PROFESSIONAL EXPERIENCE:

Client: Qurate Retail Group - HSN Online
Place: Remote, US
Role: Senior Front End Developer **OCTOBER 2023 - PRESENT**
Responsibilities:

- Developed user interface components for the HSN Online production website in compliance with W3C Standards using React js.
- Collaborated with the production team to understand stakeholder requirements and created various CMS components for the HSN website using HTML5, CSS3, Javascript, jQuery, React js and Adobe XD.
- Conducted testing and resolved browser compatibility and responsiveness issues across desktop, tablets and mobile phones.
- Regularly interfaced with stakeholders to refine project requirements and ensure alignment with business goals.
- Mentored junior developers, providing guidance on code quality and best practices.

Environment: *HTML5, JavaScript, CSS3, jQuery, Adobe XD, React.js, React Router, Redux, Node packages, and HSN CMS.*

Client: WAB (Western Alliance Bank)
Place: Remote, US
Role: Senior Front End Developer **FEBRUARY 2023 - SEPTEMBER 2023**
Responsibilities:

- Designed and constructed responsive UI components and web pages using Angular and Angular Material UI while adhering to W3C standards.
- Collaborated closely with the web development team to grasp stakeholder requirements and contributed to multiple facets of the application using a skill set encompassing HTML5, CSS3, Angular, Angular Material UI, and Bootstrap.
- Enhanced website performance by reducing page load times by 20% through code optimization and asset management.
- Collaborated directly with clients to incorporate feedback and deliver high-quality user experiences.

Environment: *HTML5, JavaScript, CSS3, Angular, Angular Material UI, Figma, and Bootstrap.*

Client: LivNow
Place: Remote, US
Role: Senior Front End Developer **MARCH 2022 - JULY 2022**
Responsibilities:

- Developed responsive UI components and web pages using React.js and Bootstrap following the W3C standards.
- Collaborated closely with the web development team and UX designer to understand stakeholder requirements and devised solutions for revamping the website using HTML5, CSS3, Reacts.js, and Bootstrap.
- Rigorously tested the functionality of React-based components within the website, meticulously verifying compatibility across a wide range of devices and browsers.

Environment: *HTML5, JavaScript, CSS3, React.js, React Router, Context API, Figma and Bootstrap.*

Client: OCLC
Place: Remote, US
Role: Senior Front End Developer **FEBRUARY 2022 - FEBRUARY 2023**
Responsibilities:

- Spearheaded the development of UI components and pages utilizing Next.js and React js for Worldcat.org, ensuring adherence to W3C standards and best practices.
- Collaborated closely with the web development team to gain a deep understanding of stakeholder requirements, contributing to the development of key application features using a stack that included HTML5, CSS3, jQuery, Next.js, and MUI (Material-UI).
- Rigorously tested the functionality of React-based components within the website, meticulously verifying compatibility across a wide range of devices and browsers.
- Improved website performance metrics, achieving a 30% boost in Lighthouse scores for accessibility and speed.
- Acted as a mentor to junior developers, assisting with code reviews and technical training.

Environment: *HTML5, JavaScript, CSS3, MUI, React.js, Next.js, Node packages, AdobeXD, Figma, and Google Analytics.*

Client: DVR Softek Inc
Place: Remote, US
Role: Front End Developer **OCTOBER 2021 - FEBRUARY 2022**
Responsibilities:

- Developed reusable UI components and SPAs using React js for DVRSoftek website following W3C standards and best practices.
- Collaborated with the UX designing team in understanding the requirements of stakeholders and developed key features using HTML5, CSS3, jQuery, React js and Bootstrap.
- Rigorously tested the functionality of React-based components within the website, meticulously verifying compatibility across a wide range of devices and browsers.

Environment: *HTML5, JavaScript, CSS3, Bootstrap, React js, Redux, React Router, Node packages, and Figma.*

Client: Virginia Tech University
Place: Blacksburg, VA, US
Role: Front End Developer **JULY 2021 - SEPTEMBER 2021**
Responsibilities:

- Created and implemented reusable UI widgets and components utilizing Adobe Experience Manager (AEM) for both vt.edu and vtx.edu websites, adhering to W3C Standards.
- Collaborated closely with the web development team and UX designer to comprehensively grasp user requirements and stakeholder expectations, employing HTML5, CSS3, jQuery, LESS, and AEM to deliver exceptional user experiences.
- Ensured cross-device and cross-browser compatibility, proactively identifying and resolving issues across various platforms to optimize website performance.
- Created reusable UI widgets using Adobe Experience Manager (AEM).
- Conducted performance audits and implemented improvements, reducing page render time by 15%.

Environment: *HTML5, JavaScript, CSS3, Bootstrap, jQuery, Web-accessibility, AEM, and Adobe XD.*

Client: Old Dominion University
Place: Norfolk, VA, US
Role: Front End Developer **NOVEMBER 2020 - JUNE 2021**
Responsibilities:

- Created intuitive and visually appealing UI pages for the university's Personal Learning Environment (PLE) website, aligning with UX design principles and adhering to W3C Standards.
- Collaborated closely with the web development team, employing Agile methodology to gain insights into user requirements and craft clean and efficient code using HTML5, CSS3, jQuery, CKeditor, Bootstrap and SCSS.

- Effectively addressed and resolved multiple issues identified by the Quality Assurance (QA) team, and implemented design changes utilizing Adobe XD, thereby enhancing overall usability and aesthetics.
- Collaborated with the marketing team to implement UX design changes and enhanced user satisfaction scores.

Environment: *HTML5, JavaScript, CSS3, SCSS, AJAX, jQuery, Web-accessibility, CKeditor, and Adobe XD.*

Client: Bank of Montreal
Place: Bangalore, Karnataka, India
Role: Senior Front End Developer **NOVEMBER 2019 - OCTOBER 2020**
Responsibilities:

- Collaborated closely with UX designers to transform their concepts into interactive UI pages, adhering to W3C Standards, for the Bank of Montreal (BOM).
- Worked seamlessly with both the backend and UX design teams to translate design concepts into functional code, utilizing a skillset that included HTML5, CSS3, jQuery, React, and SCSS.
- Crafted responsive templates for the application, meticulously ensuring compliance with web accessibility guidelines, and rigorously testing it using tools like WAVE and Siteimprove.
- Translated UX concepts into responsive web applications for the Bank of Montreal.
- Collaborated with clients to meet web accessibility compliance standards using Siteimprove.

Environment: *HTML5, JavaScript, CSS3, Bootstrap, AJAX, jQuery, React.js, Zeplin, Node packages and Siteimprove.*

Client: State of TN(Department of Education)
Place: Nashville, TN, US
Role: Front End Developer **AUGUST 2017 - JULY 2019**
Responsibilities:

- Designed and implemented user interface (UI) pages for the website, aligning with the UX design flow provided by the design team and adhering to W3C Standards for the EPP Portal.
- Collaborated closely with an Agile, multidisciplinary scrum team to transform design concepts into functional code using a technology stack that included HTML5, CSS3, jQuery, jqGrid, Toastr, Bootstrap and LESS.
- Proactively addressed and resolved diverse issues flagged by the QA team, ensuring seamless compatibility with different web browsers and devices.

Environment: *HTML5, JavaScript, CSS3, Bootstrap, AJAX, jQuery, Toastr, Node packages, and Angular.*

Client: Michigan Tech University
Place: Houghton, MI, US
Role: Front End Developer **MAY 2017 - AUGUST 2017**
Responsibilities:

- Collaborated with the design team to translate UX wireframes into user-friendly UI components, adhering to W3C standards.
- Daily creation of innovative website templates for Michigan Tech using HTML5, JavaScript, CSS3, and AJAX.
- Conducted thorough compatibility testing across multiple devices and browsers, promptly addressing and resolving issues encountered in diverse browser environments.

Environment: *HTML5, JavaScript, CSS3, AJAX, jQuery, Web-accessibility, and Wordpress.*

Client: Schlumberger
Place: Houston, TX, US
Role: Front End Developer **AUGUST 2016 - MAY 2017**
Responsibilities:

- Developed the UI components for HTML library according to the style guide and branding provided by the designing team.
- Created new transitions for the GAC application on a daily basis with help of HTML5, JavaScript, CSS3, Foundation and updated the latest revisions in Git repository.
- Worked on resolving various issues raised in different browsers and different devices.

Environment: *HTML5, JavaScript, CSS3, AJAX, jQuery, SCSS, Foundation, Node packages, Gulp, and Angular.*

Client: Cricmetric
Place: Chicago, IL, US
Role: UX/UI Developer **JULY 2015 - MARCH 2016**
Responsibilities:

- Designed and Developed the UI widgets by designing UX wireframes for Cricmetric web application that follows W3C standards.
- Updated the user interface with new features to the product on a weekly basis with help of HTML5, JavaScript, CSS3, and AJAX and also updated code in Git repository.
- Provided support for the developed UI products in the application. Application of D3.js, Angular.js, and jQuery and also have dealt with CSS frameworks like Bootstrap.

Environment: *HTML5, JavaScript, CSS3, AJAX, jQuery, D3.js, SCSS, Angular.js, Node packages, Gulp, and Bootstrap.*

Client: Infosys Limited
Place: Bangalore, Karnataka, India
Role: User Interface Specialist **NOVEMBER 2013 - MARCH 2015**
Responsibilities:

- Spearheaded the development of user-centric features, leveraging reusable code and libraries for future implementation.
- Proficiently crafted user interfaces utilizing JavaScript frameworks such as jQuery and Angular, demonstrating adaptability in delivering responsive web applications within an Agile framework.
- Created web applications conforming to W3C standards, guaranteeing cross-browser compatibility across Internet Explorer, Chrome, Firefox, and mobile platforms using HTML5, JavaScript, CSS3, LESS.
- Thoroughly addressed and rectified UI, functionality, and browser compatibility issues across various browsers and screen resolutions.

Environment: *HTML5, JavaScript, CSS3, AJAX, jQuery, Angular.js, LESS, Node packages and JIRA.*

Client: MGS Infotech
Place: Bangalore, Karnataka, India
Role: Front end developer **NOVEMBER 2011 - NOVEMBER 2013**
Responsibilities:

- Elevated website functionality and aesthetics by addressing and resolving issues that arose during its operation.
- Rigorously tested websites across various browsers and resolutions to guarantee optimal performance and user experience.
- Spearheaded the development of the initial Beta release, integrating social maps with popular platforms like Facebook, LinkedIn, Twitter, and Google+ to facilitate seamless online social connections mapping.
- Crafted user-friendly web page designs leveraging the capabilities of CSS3 and jQuery 1.8, prioritizing an intuitive interface.
- Leveraged the power of HTML5 data visualization tools to transform raw data into interactive and meaningful presentations.
- Conducted thorough compliance testing, ensuring adherence to specified standards, including accessibility requirements relevant to the client's specific region or domain.

Environment: *HTML5, JavaScript, CSS3, AJAX, jQuery, JIT and Bootstrap.*

EDUCATION:

UNIVERSITY OF DENVER, Denver, CO — Masters (Information Technology)

MARCH 2015 - AUGUST 2016

HOLY MARY INSTITUTE OF TECHNOLOGY AND SCIENCE, Hyderabad, INDIA — Bachelors (Electronics and Communication Engineering)

AUGUST 2005 - JUNE 2009

CERTIFICATIONS

- **React.js Basics & Advanced React** (Meta)
- **HTML & CSS in Depth** (Meta)
- **Programming in HTML5 with JavaScript** (Meta)
- **Version Control with Git** (Meta)

KEY ACHIEVEMENTS

- Improved website performance by **30%+** across multiple projects.
- Led UI development for applications serving **millions of users globally**.
- Recognized with **RAMP award** at Infosys for outstanding performance.
